

## INTRADAY FLEXIBILITY CONTRACT

Customer : .....  
Site : ..... (.....)  
Ref : « SITE » (« dpt »)

The undersigned:

**NaTran**, a Public Limited Company with capital of 639,283,420 Euros, having its head office at 6, rue Raoul Nordling 92270 Bois-Colombes, France, registered under number 440 117 620 RCS Nanterre, represented by Mr Pierre COTIN in his capacity as Sales Director, duly authorised for this purpose,

hereinafter referred to as NaTran,

on the one hand,

and

....., a ..... company with capital of ..... Euros, having its registered office at ....., registered with the French Company Register at ..... under number ....., represented by Mrs/Mr ....., in her/his capacity as ....., duly authorised for this purpose, [WHERE APPLICABLE: acting on behalf of .....].

hereinafter referred to as the Customer,

on the other hand,

hereinafter referred to individually as the "Party" and jointly as the "Parties",

have agreed as follows:

## ARTICLE 1 - Preamble

NaTran operates a system of natural gas transmission pipelines across France,

In application of Article L431-3 of Code de l'énergie, NaTran is responsible for "maintaining the safety and efficiency of its network and the balance of natural gas flows at all times, having regard to the technical constraints affecting it. It is responsible for ensuring the availability and implementation of the services and reserves needed for the operation of the system."

The Code de l'énergie explains that natural gas stocks allows in priority balancing and operations of networks connected to underground natural gas storages. NaTran makes optimum use of available intraday flexibility resources in order to maintain the balance of the system over the day.

Therefore, providing network users with intraday flexibility is one of the missions of NaTran.

Since the [ruling of October 28, 2010](#) proposing to change the tariffs for use of the natural gas transmission systems, accepted by the French Minister of industry, energy and digital economy, the French Energy Regulatory Commission specifies that "any user presenting a modulated volume in excess of 0.8 (zero point eight) GWh/day must subscribe for a specific intraday flexibility service, whatever its gas usage".

Since the ruling of January 29th, 2014 proposing to change the tariffs for use of the natural gas transmission systems, the French Energy Regulatory Commission specifies the intraday flexibility price is null.

Once its site begins industrial operation, the Customer is eligible for the specific intraday flexibility service.

Consequently, the Customer, as a Highly Modulated Site, and NaTran, has signed this Contract defining the procedures for implementing the specific intraday flexibility service.

## ARTICLE 2 – Purpose

The purpose of the Contract is to determine the terms and conditions under which NaTran delivers to the Customer's Highly Modulated Site, for each Hour H on Day D, the quantities of natural gas that match the Customer's offtakes on that Highly Modulated Site

## ARTICLE 3 – Contractual documents

The Contract consists of this and the following documents, available on the website [www.natransgroupe.com](http://www.natransgroupe.com):

- 02 : The General Terms and Conditions;
- 03 : Definitions of the terms used;
- 04 : Operational conditions;
- 05 : Input syntax and format for the IS and e-mail messages;

These documents constitute an indivisible whole. In the event of a discrepancy or difference of interpretation in the provisions of the different documents constituting the Contract, the order of priority is as set out in the list above.

The Contract constitutes all the undertakings made by the Parties. It annuls and replaces any previous agreement and negotiation between the parties on the same subject, whether written or verbal.

## ARTICLE 4 – Details of the highly modulated site concerned

<b>Name</b>	
<b>Address</b>	
<b>Postcode – City</b>	
<b>SIRET</b>	
<b>Operational code (LI) [Industrial Site/Consumer Delivery Point]</b>	

## ARTICLE 5 – Contact details of representatives and points of contact

### 5.1 Details of operational contacts

#### 5.1.1 For NaTran
