## New French excellence and expertise hub for cybersecurity

GRTgaz's cybersecurity analysts are setting up in the premises of Campus Cyber, a national hub inaugurated on 15 February 2022 in Puteaux by the Minister of the Economy, Finance and the Economic Recovery. All told, this involves 1,800 professionals moving into this venue from public institutions and private sector companies of all sizes. The aim is to join forces to fight more effectively against cybersecurity threats.

GRTgaz's presence at Campus Cyber will allow it to develop and expand its synergies with large French corporations and to share its expertise. It will also mean absorbing innovations that come out of the research, and following shared, recognised training programmes. GRTgaz wants to bolster its capacity to fight cyber threats by integrating the Circles of Trust needed to carry out its tasks.

For Thierry Trouvé, GRTgaz CEO and member of the Campus Cyber Board of Directors, *"The expanding threat means that everyone has to get involved: we must share in order not to suffer. Our presence at Campus Cyber will bolster the company's protection by pooling allied forces via the sharing of knowledge within a Circle of Trust and a proactive approach."*

GRTgaz is one of the largest European gas transmission system operator, boasting 32,500 km of pipelines and 640 TWh of gas transported. The business employs 3000 staff and achieved a turnover of nearly 2.3 billion euros in 2020. GRTgaz has a mission statement that runs: "Together, we make possible an energy future that is safe, affordable and climate neutral". An innovative business undergoing profound transformation to adapt its network to the new ecological and digital challenges, GRTgaz is committed to a 100% carbon neutral gas mix in France by 2050. It supports the hydrogen and renewable gas (biomethane and gas from solid and liquid waste) industries. GRTgaz carries out public service missions to guarantee security of supply to its 945 customers (shippers, distributors, industry, power stations and biomethane producers). With its subsidiaries Elengy, the European leader in methane tanker terminals, and GRTgaz Deutschland, operator of the German MEGAL transport grid, GRTgaz plays a key role on the European stage. The business exports its expertise internationally, particularly those services developed by its research centre, RICE. You can find us at <https://www.grtgaz.com> and on Twitter.
